Press Note No.3 (2014 Series)

LIST OF DEFENCE ITEMS REQUIRING INDUSTRIAL LICENSE

Defence items are covered under compulsory licensing under the IDR Act, 1951, mentioned at Sl. No.37 of the Schedule I of the Act and also included as entry No. 13 of Schedule II of Notification No.S.O.477 (E) dated 25th July 1991. Consequent to the decision in 2001 for opening up of the defence sector manufacturing for private sector participation, necessary amendment to the Schedule II of 477 (E) containing list of compulsory licensing items, was carried out vide Notification No. S.O.11(E) dated 3rd January 2002 by substituting, for the words 'Arms and ammunition, parts and accessories thereof' the words 'arms and ammunition and allied items of defence equipment; parts and accessories thereof'.

2. A list of defence items as finalized by Department of Defence Production, Ministry of Defence, to be read in conjunction with Entry No. 13 of Schedule II of the Notification No. S.O.477(E) dated 25th July 1991 as amended by Notification No.S.O. 11(E) dated 3rd January 2002, is Annexed.

3. Items not included in the list would not require industrial license for defence purposes. Further, it is clarified that dual use items, having military as well as civilian applications, other than those specially mentioned in the list, would also not require Industrial License from Defence angle.

(D. V. Prasad)

Joint Secretary to the Government of India

No.-7(3)/2009-IP.Vol III. Dated 26th June, 2014

Copy to: (1) Press Information officer, Press Information Bureau-for giving necessary publicity.

✓ (2) NIC section, DIPP- with the request to upload the Press Note on DIPP's website.

(3) Hindi Section, DIPP-for providing Hindi version.

List of defence items as finalized by Department of Defence Production, Ministry of Defence, to be read in conjunction with Entry No. 13 of Schedule II of the Notification No. S.O.477(E) dated 25th July 1991 as amended by Notification No. S.O.11(E) dated 3rd January 2002.

13 Electronic aerospace and defence equipment : all types.

ITC (HS) Code	Category	Defence Items Included
87.10	Tanks and other armoured fighting vehicles.	<ul style="list-style-type: none"> • Ground vehicles, as follows:- <ul style="list-style-type: none"> (a) Ground vehicles namely tanks and other military armoured/armed vehicles and military vehicles fitted with mountings for arms or equipment for mine laying or the launching of munitions includes all tracked and wheeled self-propelled armoured and non-armoured weapon systems and trailers for towed and static weapon systems. (b) Other ground vehicles namely all-wheel drive vehicles capable of off road use which have been manufactured or fitted with materials or components to provide Ballistic protection to level III (NIJ 0108.01, September 1985, or comparable national standard or above) with mountings for arms or equipment for mine laying specially designed for military use. (c) Amphibious, hovercrafts and deep water fording vehicles for military use. • Cryogenic and superconductive equipment especially designed or configured to be installed in military vehicle.
88.01 to 88.05	Defence aircraft, space craft and parts thereof.	<ul style="list-style-type: none"> • "Aircraft" including but not limited to helicopters, "lighter-than-air vehicle", "Unmanned Aerial Vehicles" (UAVs), Remotely Piloted Vehicles (RPVs), autonomous programmable vehicles, unmanned lighter than air vehicle (to include all variety of manned and unmanned airborne vehicles – includes target systems, loitering missiles, drones, balloons, blimps, aerostat, parachutes, paragliders, ground effect machines, air cushion vehicles/hovercraft, UAVs and launchers, designed for military application).

8906.01	Warships all kinds.	<ul style="list-style-type: none"> • Vessels of war (surface or underwater), other surface vessels (Fitted with automatic weapons having a caliber of 12.7 mm or higher, CBRN protection, active weapon countermeasure systems), special naval equipment, anti-submarine/torpedo nets, hull penetrators and connectors "specially designed for military use". • Air Independent Propulsion (AIP) systems (nuclear/conventional) for marine applications.
93.01 to 93.07	Arms and ammunition and allied items of defence equipment; parts and accessories thereof.	<ul style="list-style-type: none"> • All Rifle & Smooth-bore weapons and other arms, automatic/Semi-automatic or pump action type weapons, Weapons using case less ammunition, Silencers, special gun-mountings, weapons sights, signature reduction devices and flash suppressors to include rifles, carbines, revolvers, pistols, machine pistols, multi barrel rocket, machine guns, guns, rocket, cannon & missile systems –used on land, ships & shore based and airborne, howitzers, mortars, anti-tank weapons, projectile launchers, military flame throwers, rifles, recoilless rifles. • Ammunition and fuze setting devices including the following: <ul style="list-style-type: none"> (a) Safing and arming devices, fuzes, sensors and initiation devices; (b) Power supplies with high one-time operational output; (c) Combustible cases for charges; (d) Submunitions including bomblets, minelets and terminally guided projectiles. • Bombs, torpedoes, grenades, smoke canisters, rockets, mines, missiles, depth charges, demolition-charges, demolition-devices, demolition kits, aircraft missile protection systems (AMPS), "pyrotechnic" devices, cartridges and simulators (i.e. equipment simulating the characteristics of any of these items), specially designed for military use. • "Energetic materials" and related substances includes all explosives like primers, boosters, initiators, igniters, detonators, smoke bomb, colour signals, propellants and pyrotechnics, oxidizers, binders, plasticizers, mobomers, additive scuopling agents, Precursors and other related ammunition.

		<ul style="list-style-type: none"> • High velocity kinetic energy weapon systems and related equipment: <ul style="list-style-type: none"> (a) Kinetic energy weapon systems specially designed for destruction or effecting mission-abort of target; (b) Specially designed test and evaluation facilities and test models, including diagnostic instrumentation and targets, for dynamic testing of kinetic energy projectiles and systems. • Directed Energy Weapon (DEW) systems, related or countermeasure "equipment and test models" as follows:- <ul style="list-style-type: none"> (a) "Laser" systems specially designed for, destruction or effecting mission, abort of a target; (b) Particle beam systems capable of destruction or effecting mission- abort of a target; (c) High power Radio-Frequency (RF) systems capable of destruction or effecting mission-abort of target; (d) Equipment specially designed for the detection or identification of; or defence against, systems at (a) and (c) above. (e) Physical test models for the systems, equipment and components, specified under this head. (f) 'Laser protection equipment (e.g. eye and sensor protection)'. • Electronic Equipment used for electronic counter measure (ECM) and electronic counter countermeasure (ECCM), surveillance, intelligence, Command and Control systems, Global Navigation satellite systems (GNSS) jamming equipment. Data processing, storage and transmission security equipment, identification and authentication equipment (including identification Friend or Foe and non-Cooperative Target Return Identification systems), guidance and navigation equipment' Troposcatter-radio communications equipment' and Military Information Security assurance systems and equipment (like cryptographic devices including military Cryptographic key management and
